

Source Protection Committee Role

The Source Protection Committee (SPC) is responsible to guide the development of updated and amended assessment reports and source protection plans as well as guiding implementation of existing plans. The SPC works in cooperation with the source protection authorities. The SPC considers public input, technical studies, ensures input from local municipalities, and provides advice on source protection plan requirements.

Source Protection Committee Member Overview of Responsibilities

Committee candidates must:

- Reside, own property, rent property, be employed in, operate a business in, or be employed by a municipality that is located within the North Bay - Mattawa Source Protection Area (see map)
